

## **- Membership Request -**

Off The Record is a facilitated peer community for the startup industry. Originally founded in 2019 by 7 leading VC funds in New York, the organization has since grown to include over 100 seed + series A startup founders and 60 venture capital funds. Participants include Two Sigma Ventures, Bullpen Ventures, Laconia, Ocrolus, RapidSOS, Vivvi, and many more.

OTR has invited me to join a newly launched peer group for mid-level venture capital professionals based in New York. This group provides multiple benefits for participants:

- Facilitated monthly meetings to address personal and professional issues with peers
- Access to a network of 60+ founders and investors focusing on similar industries and stages
- Ongoing local events, facilitated introductions, and corporate resources
- Network of investors and founders in major cities across the US
- Speaking opportunities and complementary partner event tickets

OTR is a registered non-profit organization. The program is currently offering a subsidized membership of \$200 per month. This membership includes all costs related to participation, events, and resources.
